

Broad National Movement (BNM)

Summary of Human Rights Violations in Sudan from September 2017

Submission to Human Rights Council Session No (39)

There are no improvements in human right record of Khartoum regime since the last human right session in Geneva (36) 2017. On the contrary, there are more extensive human right violations since then.

First: The right to live and to exist has been threatened, the regime imposed stern economic astringents on the people leading to unbearable increase of prices and lack of basic needs like bread, fuel and similar requirements.

Second: The regime failed to provide medical treatments even in case of emergency. Prepaid heavy cost is required, Many people are not able to pay and patients face death, Social media mentioned the case of child brought by his parents from Madani to Khartoum government hospital in a state of emergency but denied admission to the government hospital due to inability to pay heavy costs and the child pass away at the threshold of the government hospital.

Third: Banks failed to meet the request of costumers to withdraw from their accounts and savings and also government employees could not withdraw their monthly pay, thousands of customers and employees stand in long queues for hours short of withdrawing their entitlements. Banks have no money and the government and associates embezzled the savings of costumers. Consequently, many could not meet their basic needs including foods, medical treatment and house rent.

Fourth: All oppressive laws are still in operation e.g. State security law 2010, Public order law, Press law and emergency laws in sates of Darfur ,Kordufan,Blue Nile and Kassala .Citizens and human rights activists suffer under these laws. They are arrested, detained, daily summoned and tortured and denied access to family, lawyers or medical treatment. Women are still being detained, harassed, insulted, tortured and whipped for their dress.

Fifth: Sudanese are not safe and are daily venerable to rape, torture and homicide in many places haunted by government militias of Raped Support forces (RSF) specially in Darfur , south kordufan , blue Nile and Kassala. RSF, not bound by any law and backed by unfettered immunity may beat any person, Rob and loot, arrest and detained. They beat doctors when performing their medical dutes, they did so at Kassala hospital and Elobeid hospital in Kordufan. One of RSF attacked two female doctors at Elobaid hospital in August 2018. All doctors in the hospital claimed that offender be accountable.

Broad National Movement (BNM)

Instead the doctors were arrested including:-

- 1/ **Dr Naser Shagga Nasir**
- 2/ **Dr Hussameldin Elturabi**
- 3/ **Dr Ammar Fathaleem**
- 4/ **Dr Mohamed Suliman Jabir**
- 5/ **Dr Mohamed Algziouli**

This gives unrestricted license to offenders from RSF to commit crimes in return of suppressing political opponents.

Sixth: Freedom of expression is denied. Newspapers are repeatedly confiscated by National Intelligent Security Service (NISS) after printing causing heavy losses to newspapers. Many journalists are banned from writing or dismissed.

Seventh: In September 2013 more than two hundred young Sudanese, men and women, were murdered by the regime when they were in peaceful demonstrations against high pricing of commodities. There have been repeated demands from the international community for independent fair inquiry. The regime refused to respond. It shall not respond because it a wrong-doer. It well known that the victims were deliberately murdered by the militias of the regime and NISS. International inquiry and a decision to this effect is urgently needed.

Eights: Some cases of human rights violations since last year 2017 are as follows:-

- 1/ On 28 /08/2017 government militias invaded Kassal University, arrested and tortured students including Mohamed Mustafa Salim and Idris Mohamed Sidi Faki from DUP.

Those who protested from his family were arrested by NISS including **Ms ameera Abbass, Dr Jalal Mustafa** and **Mr Mohamed Moatasim Alkabashi**.

Broad National Movement (BNM)

Conclusion

It is evident that Khartoum regime is insisently violating Human Rights, and shall not refrain from so doing as the President of the regime is wanted by ICC and shall not leave power aspiring to be protected from ICC Warrants of arrest or at least to hinder and delay his arrest. He is now in power for Six terms in office and seeks to amend the constitution for a Seventh Term. His only means are to supress the opposition by arresting, detaining torturing and killing any person who raises the slightest gesture of opposition.

He shall continue to violate human rights. It's the duty of the international community to limit such violations if it cannot stop them. Referring Sudan to article Four is the best way to supervise such violation.

Yours faithfully,

Ali Mahmoud Hassanein

Chairman of Broad National Movement (BNM)

03.09.2018
